

CLEAN SANITIZE DISINFECT

steamkleen™
VAPOUR STEAM CLEANER

Tired of cleaning with soaps, scrubs, buckets and mops?

- Laborious
- Chemical dependent
- Slow
- Messy
- Complicated
- Costly

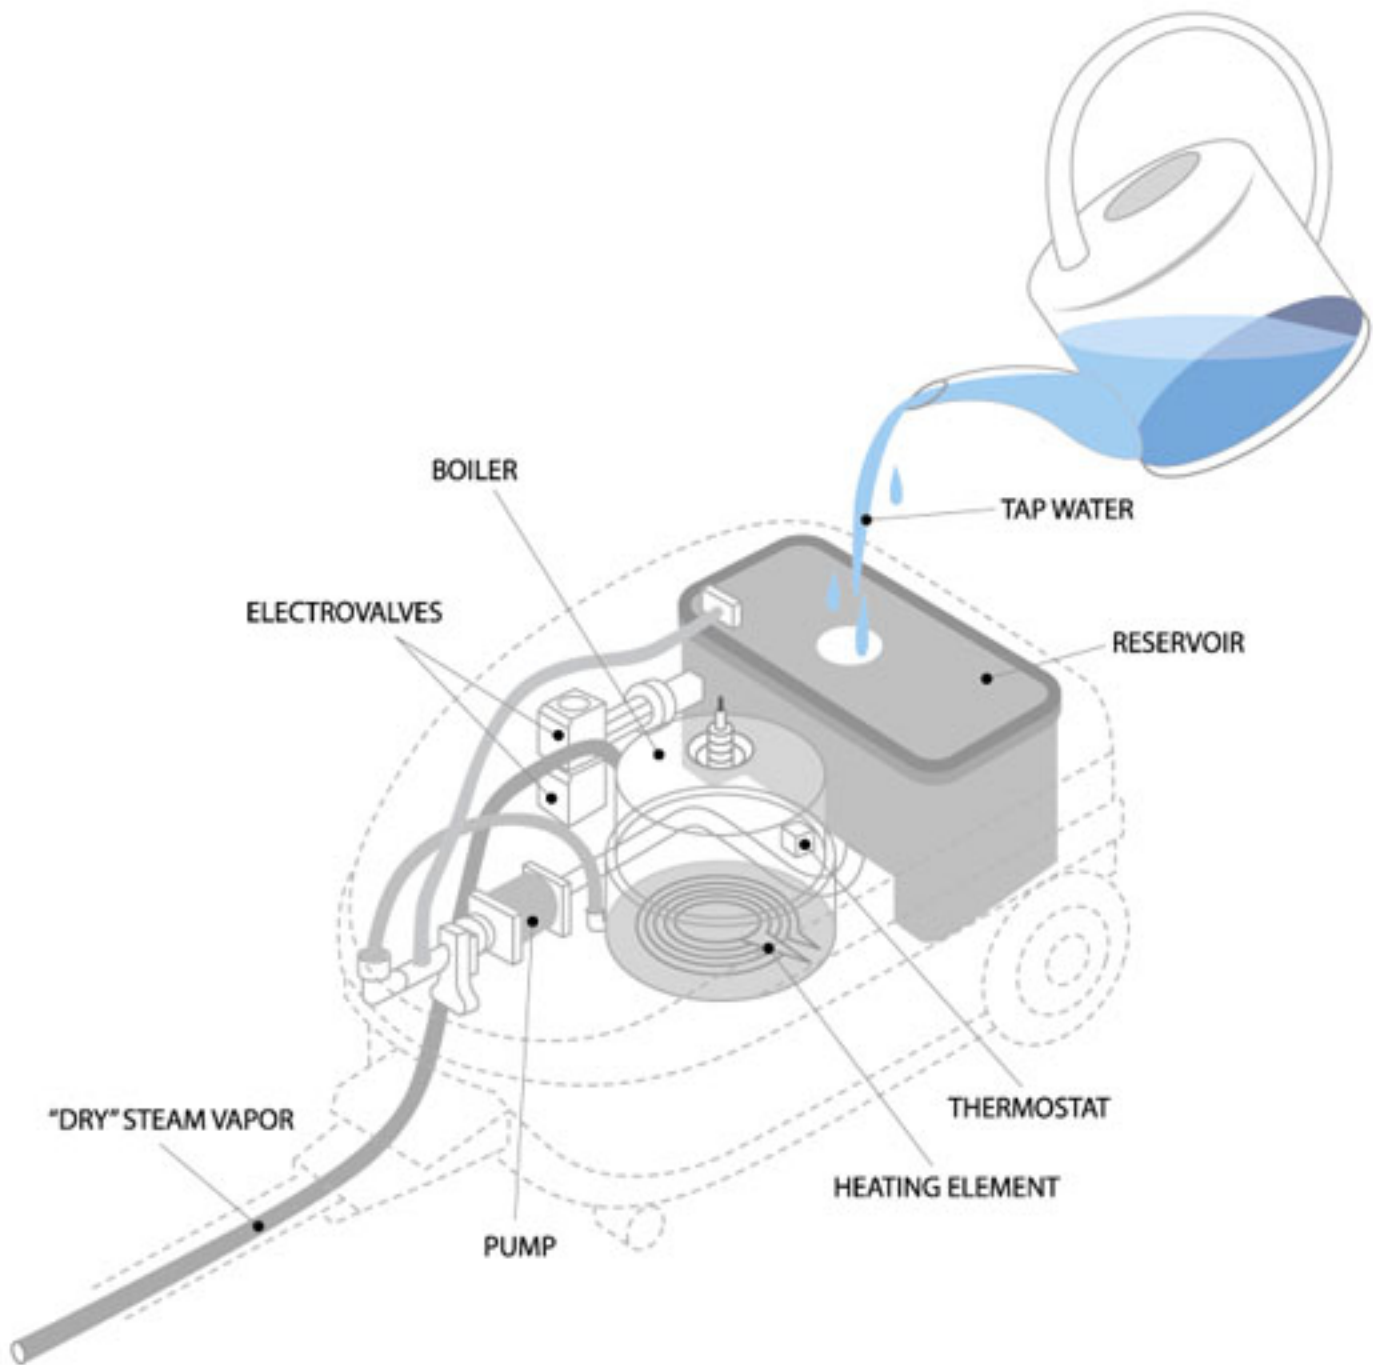

PROBLEMS SOLVED

**Clean, Sanitize & Disinfect
in one easy step
with**

steamkleen™

What is Steamkleen?

Steamkleen may look like a vacuum, but it's not. It's a steam cleaner that uses only ordinary tap water, high temperature vapour and pressure to clean, sanitize and disinfect virtually every area of your home.

Steamkleen does not use any chemical; it is the most environmentally friendly cleaning system.

How does it work?

Using only a bucket of tap water, Steamkleen produces a hot "dry" (160°C) vapour with 4-6% water content, leaving almost no damp residue on the surface. The heat combined with light rubbing action emulsifies and loosens any tough stains, dirt, grease and chemicals.

What are the benefits?

- 1 Superior Cleaning
- 2 Kills Allergens, Germs, Bacteria and Fungi More Effectively
- 3 Easy, Fast and Mess Free
- 4 Save Money
- 5 Environmentally Friendly

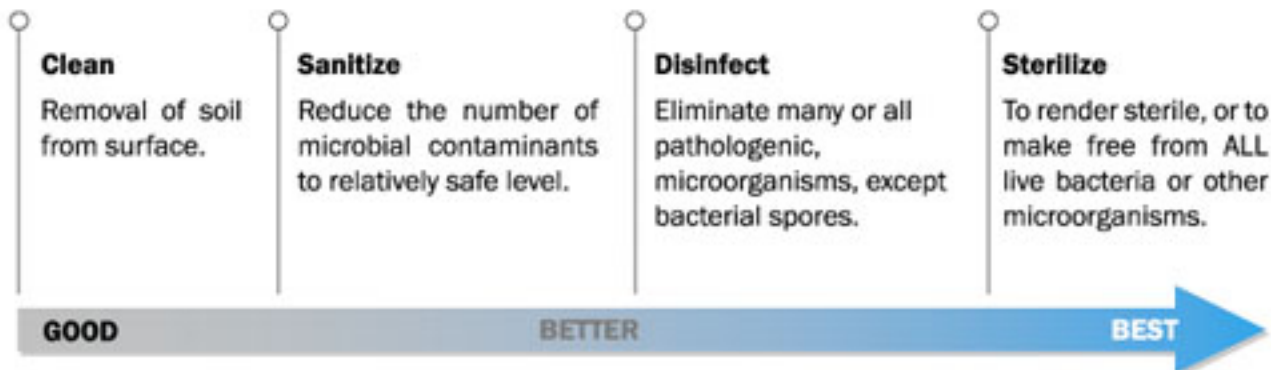

1 Superior Cleaning

Steamkleen cleans more thoroughly than conventional cleaning.

Not only does it clean deep down, but it also sanitizes and disinfects any surface. The hot vapour and high temperature blasts and penetrates deep into surface pores and crevices without damaging it.

How Clean ?

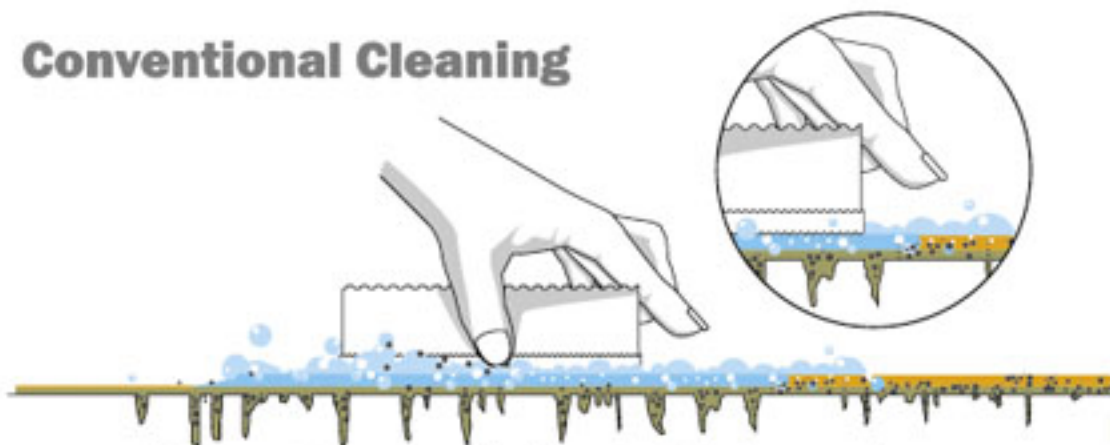

Scientifically defined levels of "Clean" *)

With proper use, Steamkleen not only cleans, but also sanitizes and disinfects.

*) Source : Centers for Disease Control and Prevention - www.cdc.gov

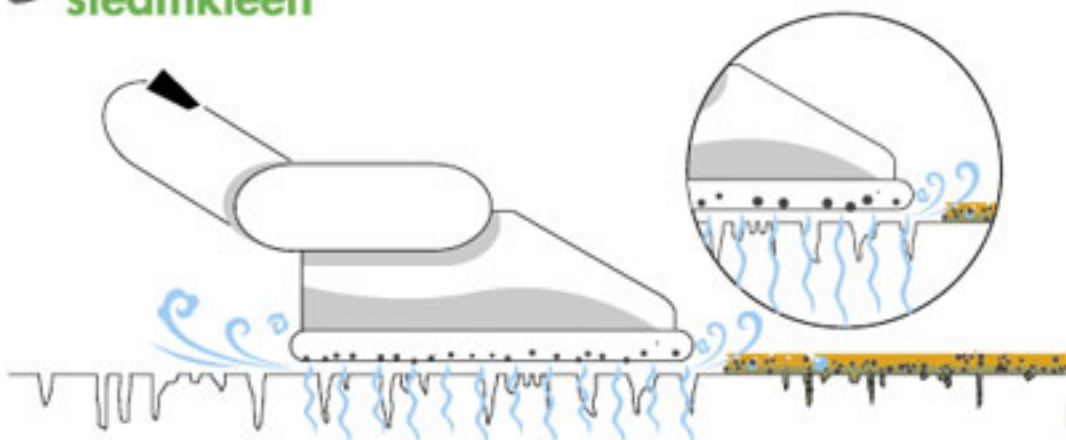

Conventional Cleaning

Dirt can be trapped deep inside the surface pores.
Chemicals can only clean the top of surface pores.

steamkleen™

Steam penetrates deep into the pores and crevices
better than ordinary chemicals.

2

Kills Allergens, Germs, Bacteria and Fungi More Effectively

Cockroach and dust mite feces are the leading trigger of asthma and allergy at home. Lung USA and Asthma and the Allergy Association Foundation of America recommend using heat of at least 55°C to kill dust mites, including their eggs and larvae.

Steamkleen produces a temperature in excess of 160°C which destroys dust mites, pathogens, microorganisms, germs and bacteria including the antibiotic resistant MRSA.

Steamkleen's unique hot "dry" steam vapour cleans without over wetting. The area treated is completely dry in a matter of minutes, which is important because dust mites, germs and bacteria thrive in humid environment.

3

Easy, Fast & Mess Free

Conventional cleaning requires you to spend long hours and hard labour to scrub, rinse and dry the area being cleaned.

Steamkleen simplifies your work; in just one simple step it performs three tasks: cleaning, sanitizing and disinfecting.

Clean hard-to-reach places faster, easier and safer. Spend less time and effort scrubbing, squatting and stooping on hands and knees.

Surfaces cleaned with Steamkleen dry almost instantly, without further rinsing and disposal of dirty water. No need for buckets, mops, sponges and scrubs, it's a virtually "mess free" way of cleaning.

4 Save Money

Eliminate or reduce monthly spending on multiple household chemicals, soaps, disinfectants or polishers.

A small amount of water is all you need for your daily cleaning task.

5 Environmentally Friendly

Using only a bucket of water, cleaning your home with Steamkleen is safe and environmentally friendly through reduced chemical and low water usage.

Steamkleen is beneficial for those who are sensitive to chemicals, especially when children and the elderly are present in the house.

Versatile Applications

Steamkleen comes with complete set of tools and accessories to handle a wide range of cleaning tasks.

BATHROOM

Clean, disinfect and deodorize tiles, grouts, fittings, floors, walls, bathtubs, toilet bowls, shower curtain, shower doors.

Remove tough water mark residue, lime and dirt on tiles on porcelain, stainless steel, fiberglass and glass surfaces.

KITCHEN

Clean and degrease floors, countertops, sinks, faucets, grills, racks, ovens, exhaust hoods, microwaves and refrigerators.

BEDROOM

Clean, disinfect and deodorize mattresses, upholstered surfaces, stuffed toys, curtains, fabrics, carpets.

LIVING ROOM

Clean and sanitize all kinds for hard floors including vinyl, ceramic, marble, parquets, rugs and carpets.

Freshen and deodorize floors, carpets and rugs the natural way.

EVEN FOR YOUR CAR

Cleans and deodorize car interiors, seats, carpets and wheel rims. Degrease car engine without solvents or toxic fumes.

Tools & Accessories

Standard

Steam hose 2450 mm

Extension wand

Rectangular brush

Funnel

Drain opener

Towel

Pad for rectangular brush

Black nozzle

Medium brush
with polyester bristles 38 mm

Small brush
with polyester bristles 30 mm

Optional

Window cleaner with rubber blades
250 mm and 350 mm

Black upholstery
spatula

Triangular brush

Pad for
triangular brush

ABOUT STEAMKLEEN

Steamkleen is engineered and made in Italy. It combines the latest patented steam technologies with the highest quality parts and materials.

UNIQUE FEATURES AND BENEFITS

High Pressure & Low Moisture Steam

Quality heating element produces higher temperature to create the optimal vapor steam : 160°C at the nozzle to generate the optimal "dry" vapor of 5 - 6.5 bar in pressure and only 4-6% in water content, thus leaves almost no damp residue on the surface and effectively kills bacteria and viruses for the best cleaning result.

Quality Parts & Components

High grade AISI 304 stainless steel for boiler and ABS heat-resistant for housing ensure reliability, durability and ease of maintenance.

User Friendly

Continuous water refill for uninterrupted operation, adjustable steam pressure control, easy to read gauges/indicators allow ease of operation.

Safety Features

ETL Certified, IPX4 Rating and Safety Systems - splash-proof design, thermostats, and low water warning signals. All units tested in compliance to International Safety Standards.

Complete Tools & Accessories

A complete set of tools and accessories are included as standard to handle a wide range of cleaning applications/tasks.
